## LOVE YOU MADLY

-DUKE ELLINGTON

Love you madly right or wrong. Sounds like the lyric of a song. But since it's so I thought you And that's for sure just like I ought to know, I love you, love you madly. But ly. If you could see the happy you and me I dream about so proudly, you'd know the breath of spring that makes me sing my love song so loudly. Good things come to those who wait, so just re-lax and wait for fate to let me see the day you'll say to me, I love you, love you madly.
